

COVID Committee Proposal for Renters 3/30/21

The COVID19 steering committee proposes that Jojoba Hills re-open for boondock or site rentals. Jojoba residents are deeply protective of our vulnerable elders. So we ask for a higher degree of loyalty and commitment to our COVID rules. We ask for voluntary sharing of your current COVID19 health status. We trust you to be forthcoming and truthful. As part of this community, you will discover the same protective effort will be applied to your well being.

Renters who show proof of full vaccination status (as defined by CDC: two weeks after the last dose of the vaccine) do not need to quarantine.

Renters must complete/meet screening questionnaire/criteria at time of registration in the office:

1. Temperature check (100.4 degrees or higher not allowed to enter; **advised to seek medical care/test**)
2. *Are you feeling sick now?* (if symptomatic, not allowed to enter; **seek medical care, return when well**)
3. *Have you been well for the last 10 days?* (**if NO, must quarantine, or show negative COVID test or proof vaccination**)
4. *Have you had any known or suspected exposure to COVID19 in the last 10 days?* (**if YES, but no symptoms, may enter but must quarantine**)
5. *Have you been fully vaccinated?* (**if NO must self-quarantine 10 days or show negative COVID test. If YES must show vaccine card**)
7. *Will you follow CDC and Jojoba Hills COVID guidelines, including wearing masks and social distancing when in public?* (must answer yes).
8. Qualified Renters will sign current Jojoba COVID guidelines and are given a copy by the office.

Once park is open to renters, Corporate Communications Committee will be advised to start advertising
